

# SCOUT PRESENTATION

Scouts were founded by Robert Baden Powell in 1907.

## PURPOSES

The purpose of scouting is to form good citizens: that is, to be ready to serve God and their homeland and to respect the Scout law. Each boy or girl, becomes a scout by making a promise, make shy people outgoing and make a boy more responsible and mature.

## OUR GROUP

I'm part of the Agesci Afragola 3 scout group, and our patron is Saint George. Our handkerchief is made up of two colours, red representing the blood of Saint George's martyrdom and white representing purity. Our group consists of 3 branches, divided by age group:

Scouts from 8 to 11 years: the aim is to learn to be together with others and to discover their own qualities;

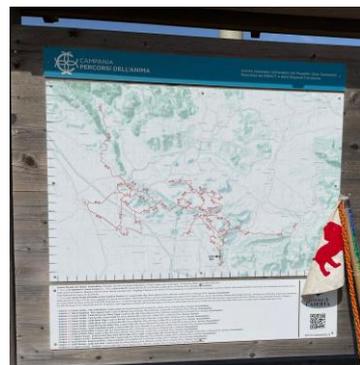

The department that goes from 11 to 16 years: the purpose is to teach all the survival techniques and be always ready and prepared to be of help moment.

The clan that goes from 16 to 21 years: the purpose is to recognize themselves as a citizen, making personal choices.

## ACTIVITIES

The scouts, are able to adapt in nature despite the scarce resources, they know how to orient themselves with the compass and the topographic map, they know how to cook with the fire to the trappeur, in the evening they sing and dance around the fire, they sleep in tent and they prepare activities for fun.

## CAMPS

During the year we make 3 outputs: - Winter camp lasting 3 days -Campo San Giorgio from 2 to 3 days -Summer camp lasting 7-8 days or more. However, there are not only these outings, in fact at the beginning of the year a calendar is made for each squadron where it is decided where and when to leave.

## EVENT

During the year, you can also participate in the green cars, a regional event that consists in the conquest of the latter by preparing two companies and a mission. The aim is to demonstrate competence in a specific field that we call squadron specialties: EXPLORATION, FIRST AID, CAMPISMO, JOURNALISM, NAUTICAL, NATURE, INTERNATIONAL ANIMATION, EXPRESSIVE ANIMATION, OLYMPIA and many others.
