Capercaillie and **Black Grouse** are really a reason to visit Finland, but few people know that Finland has much more to offer. The endless Nordic wilderness has a large number of these birds, and thanks to its vast expanse of Finnish forests, they thrive. If you are only looking for the Capercaillie and the Black Grouse, the closest areas to the airport are in central and eastern Finland. These areas are accessible within a 5-6 hour drive from Helsinki International Airport. In the same areas you can also find **Hazel Grouse**. However, we offer the most attractive option, and that is northern Finland, where you can hunt the **Willow Ptarmigan** in addition to the Capercaillie, the Black Grouse, and the Hazel Grouse. The destination airport is the airport in Rovaniemi, from where we will transport you directly to the place of accommodation. Comfortable cabins in the forest are of course also a traditional Finnish sauna for regeneration after hunting.

Hunting trip program:

- 1 day: arrival at the airport in Rovaniemi, transfer to the place of accommodation, organizational instructions, dinner
