

**Type of activity**

The International Tourism Day

NAME of Partner school

SSOŠ Pro scholaris

Project Duration

From 01/09/2019 until 31/08/2021

Start Date: 25/9/2019

End Date: 02/10/2019

Description of the activity:**Number of people reached/target groups:**

On 25th September the class teachers promoted the project TRIP during the class teacher's lessons to 191 students by presenting a presentation prepared by the project coordinator.

The next week, on 2nd October 2019, 191 students of Private Vocational School Pro Scholaris in Žilina participated in activities that were realized as a commemoration of the International Tourism Day and social inclusion.

The students completed a group workshop based on team work and social inclusion. At first the students were divided into groups without using words by sticking various pictures on their back. Some of the participants were excluded, because their picture was only one of a kind, but the students let them join their group. After the activity we discussed about the emotions and feelings of excluded students, about the motivation of others to include their peers into their group and the social inclusion as well.

During the second activity the students worked in the same groups and they completed the task based on linking flags with countries and they had to add them different photos of UNESCO monuments in project counties. We described the UNESCO heritage and the importance of the places in the pictures. To know more about the history of partner countries, the students had to connect 6 papers containing important years with the significant historical events.
