

Elixair[®] E600

Superior clean air efficiency without fiber filters. Energy and cost efficient air purifier to protect the health of staff and patients in healthcare spaces, including patient rooms, clinics, waiting and rest areas. Compact sized and silent unit saves floor space and can also be wall mounted vertically or horizontally.

Technical information	E600
Clean air delivery rate	79...246 m ³ /h at 0.3-5.0 µm particle size
Cleaning efficiency	> 99% of 0,1 µm particles
Dimensions (W x H x D)	34 x 93 x 38 cm
Weight	16,7 kg
Material	Aluminium, steel
Color	White with silver legs & top
Installation	Stand-alone, wall mounting
Fan speed	3 step speed control (80-180-250 m ³ /h)
Power consumption	71 W
Sound level	23...43 dB at 3 m
Rated voltage	220-240 Vac 50/60 Hz
Operational temperature	+5...+40 °C
Operational humidity	RH 60 % @ +40 C
Safety & Quality	ISO 9001, ISO 14001, IEC 60335-1, IEC 60335-2-65 Conforms to Low Voltage Directive (LVD) 2014/35/EU made in Finland, CE

Genano-technology

– Patented nanoscale air purification

- Simple and low cost maintenance
- Active carbon shall be replaced every 6-12 months
- Very low energy consumption (71 W)
- Nordic design - made in Finland
- Color – white with silver legs and top

- 1 Contaminated air is led inside the unit.
- 2 Particles are ionised. Ionised particles attach to the collection tube. Microbes are destroyed in a high voltage process.
- 3 Next, the air is led to active carbon collector which effectively removes ozone, VOC-gases and odours.
- 4 Outcoming ultra-pure air is completely free from particles of all sizes, microbes; bacteria and viruses, and harmful gaseous compounds.

The only changeable part is the active carbon filter.

Genano – Pure Air. Nothing Else.
